How to Give Good Advice.
The best way to give good advice is to set a good example. When others see how quickly you get over your cold by taking Chamberlain's Cough Remedy they are likely to follow your example. This remedy has been in use for many years and enjoys an excellent reputation. Obtainable everywhere.—Adv.

Famous Indian Rider Arrives.
Jackson Sundown, famous Indian bucking horse rider, who last year captured third honors at the Round-Up, arrived yesterday from the Nez Perce reservation and entered in the bucking contest. Sundown is determined to carry off some of the Round-Up money this year.

Constipation the Father of Many Ills.
Of the numerous ills that affect humanity a large share, start with constipation. Keep your bowels regular and they may be avoided. When a laxative is needed take Chamberlain's Tablets. They not only move the bowels but improve the appetite and strengthen the digestion. Obtainable everywhere.—Adv.

HIGH SCHOOL
NEWS

The class in home management at high school has been divided into groups. The first group consists of Nola Childreth, Ida Wells, Susan Narhaus, Thelma Childreth and Selby Johnson. These girls will begin Monday to plan the meals for a week and do the buying. Every girl in the class will keep all household accounts for the practice house. This will teach the students the cost of living.

The class in housework has its groups. Helen Isaac, Irene Specknagle and Merle King will be held responsible for the care of the house this coming week. These girls will in one hour's time wash the dishes, put the living and bed rooms in order.

The class in laundry also will have their share in doing the laundry work connected with the house, such as washing linens, towels, etc.

The girls in the advanced class in sewing are learning to manipulate all of the machine attachments. When the tucking, binding, hemming and other stitches are mastered, these will be applied to simple waists. The first year students are learning the five fundamental stitches. Hand sewing must be done correctly before they can take up machine work.
